Massages

Amrit Custom Massage

50/80/110-Minutes

Our goal is to create a handcrafted experience personalized for you – ranging from relaxing to revitalizing; Swedish, Deep Tissue, Sports or a combination thereof – to align your mind, body and spirit, which may also include breathwork for respiratory concerns, abdominal work and flexibility improvement.

CBD Massage

50/80/110-Minutes

Elevate your massage with organic, natural and anti-aging CBD lotion. These pure ingredients decrease inflammation, pain and tension, while allowing you to reach a deeper level of mind and body relaxation.

Clarity Massage

75/105-minutes

Warm Himalayan salt stones, containing more than 84 trace minerals, are strategically placed on the body and curated massage modalities merge to deliver a grounding massage that helps open blocked energy points throughout the body.

Specialty & Advanced Massages

Prenatal

80/110-Minutes*

This restorative treatment is designed to help the mom-to-be improve sleep, reduce stress and soothe muscles. An application of rich oils will help support the prevention and appearance of stretch marks.

*Must be 13+ weeks to receive bodywork.

Cranial Sacral

80-Minutes

This globally renown technique focuses on the spine, head and central nervous system to gently release tensions and restrictions in the body, relieving pain and dysfunction. Subtle, gentle yet powerful, the body releases, the mind relaxes and the senses reboot.

Lymphatic Drainage

80/110-Minutes*

A gentle yet powerful massage with light rhythmic pressure, soft strokes and ultralight drumming techniques, encourages the movement of fluids through the body to accelerate natural elimination of toxins. An essential treatment to counteract sluggish or blocked areas and prevent swelling, relieve fatigue and enhance the immune system.

*Includes dry brushing.

Myofascial Release

80/110-Minutes

Gentle pressure and release techniques focusing on the body's connective tissue are used to reduce restrictions, eliminate pain and restore motion. This treatment is performed directly on skin without oils or creams and can have powerful, long-lasting results. One treatment will create shifts in the mind/body. A series of 10 or more treatments help create an overall transformation.

Neuromuscular

80-Minutes

This precise, soft-tissue therapy helps release hyper contraction and spasms in soft tissue, eliminate trigger points that cause pain, and restore healthy postural alignment and flexibility. This specialized service targets headaches, hip, back, jaw and shoulder pain.

Cupping

80/110-Minutes

The use of special cups creates a vacuum effect on underlying muscle tissue. The intended suction can range from light to heavy and has many benefits: increasing lymphatic circulation and blood flow to the skin, facilitating deep tissue work, loosening adhesions, and relieving inflammation and pain causing factors.

Reflexology

25-Minutes*

This specialized foot and hand experience begins with soothing warm towels steeped in aromatic essential oils. The therapists use an energizing cream combined with specific massage techniques to improve circulation, relieve fatigue and awaken the senses.
